Other Services from MRO Supply, Inc.

MRO works very hard to serve you in ways beyond the capabilities of a normal distributor. Here are some of the services we provide to assist you as your supply-chain partner.

Supply-chain Consulting Services:

MRO will evaluate your current purchasing processes and practices and will offer suggestions in making your operation more efficient as well as offering solutions to reduce your on hand inventory and increase your inventory turns. We will work with your personnel and suppliers to streamline your operation where it makes sense.

Kitting Services:

We can package specific parts in specific quantities together into “kits”, label them in whatever way you need, and keep kits on the shelf ready for you to purchase. Kits can have a single part number assigned to make reordering simple. MRO can also build custom assemblies to your specifications. We will ship Kits or custom assemblies to you or to your customer.
